

ACCESSING YOUR MYAGGIELAND ACCOUNT

Follow these simple instructions to create your MyAggieland account.

1 Log in

Already have an AggieNetwork.com account? If you created or updated it **after August 2025**, you already have a MyAggieland account — **they share the same login**. Use the **same email and password** you use for AggieNetwork.com to sign in to MyAggieland. There is nothing new to create.

Visit myaggieland.txamfoundation.com and click **[Log In]** in the top navigation bar. Enter your **Username** and **Password**, then click the maroon **[Log in]** button. Forgot your password? Use the **Forgot your password?** link right below the button.

2 Create a new account (if needed)

Click **[Create Your Account]** in the top navigation. On the **Set Up Your Account** screen, enter:

First Name · **Last Name** (as you registered or attended Texas A&M) · **Class Year** (if applicable — the year you graduated)

Click **[Next Step]**. A list of matching records will appear with **Location** and **Extra Information** (major and class year) to help you identify yourself. Click your name in the **Create Account Link** column. You'll receive an email with a password reset link to finish setting up your password — and you'll be able to log into both MyAggieland and AggieNetwork.com with the same credentials.

3 Can't find your record?

If your name doesn't appear in the results, click **[Search Again]** to adjust what you entered. Still no match? Click **[Can't Find Yourself, or Can't Register?]** to open the **Account Request** form. Once our team processes the request, you'll receive an email prompting you to log in.
